

Hazardous Drug Advisory Committee Meeting

Wednesday, June 12th, 2012

9:00AM to 12:00PM,

Tukwila L&I Office

12806 Gateway Drive

Tukwila, WA 98168-1050

Welcome and Introductions, Alan Lundeen

Subcommittees update:

- Model programs, Jeff Rochon
 - We are still working on the algorithm-hazard analysis tool
 - WSPA was granted a SHIP grant so we will be working on that this summer
 - We are working on getting more clarification on the NIOSH intent for the guidelines.

Model program drafts, Alan Lundeen

- Comments and discussion
 - The committee would like to clarify the definitions before posting the draft model programs on the website.
 - It would be good to post the subcommittee dates and locations on our website. Contact Veda and these can be uploaded.
 - The drafts will be posted on July 1, 2013
 - The example of the workplace is a scary scenario the solution is not good. The rest of the documents are good.
 - We request you send all comments by email to Veda McCall or Alan Lundeen.
 -

Chair comments - Employee representative, Karen Bowman

- The Employee work group is having trouble getting together. We have a meeting scheduled for Monday or Tuesday.

Chair comments – Employer representative, Alex Truchot

- Take out the PPE and just say assess the PPE.
- The PPE in this is over kill. It would be prohibitive.
- If we post these on the website then change the date for comments.

Round Table discussion

- What does Universal Precautions mean?
- Assistant Director will make the decision on the extension of time for the comments. We will let you know.
- It would be good to have examples that are the minimum.
- Why is this so important to put on the web if enforcement has been delayed.
 - This has been our direction.
- We will post the date of deadline for comments and the drafts on the internet.
- Comments with meaning will be difficult with this time crunch.
- Could we have a model program for an outpatient clinic?
 - These draft programs are intended for the small employer.

- The draft directive will be out soon.
- How do we know if our assessments are correct?
 - Consultation
