

Hazardous Drug Advisory Committee Meeting

Tuesday October 8, 2012

9:00AM to 12:00PM,

Tukwila L&I Office, 12806 Gateway Drive

Tukwila, WA 98168-1050

Welcome and Introductions, Alan Lundeen

Subcommittees update:

- Model programs, Jeff Rochon
 - We are still working on the algorithm-hazard analysis tool. It is almost done.
 - WSPA was granted a SHIP grant so we will be working on that this summer
 - Looking at other guidance documents that discuss PPE and then comparing them.

Model program drafts, Alan Lundeen

- Comments and discussion
 - The model programs will be posted on the internet and they will not be called model programs. They will be called guidance programs. It will be stated that they are not required to use these documents but can be used in part to create your program. These documents were revised to include the changes that came about from the comments from the public and the committee.

Rules update- Alan Lundeen

Governor's Conference Presentation

- Discussion of the presentation at the Governor's Conference and talked about proposing to the Board for a specialized conference that focuses on the Healthcare industry. Like the Construction Safety Day or the Ag Safety Day. It seems that the large conference is too big for the healthcare industry to go to for one or two sessions.

Ventilation Hood Demonstration

-

Consultation Services (L&I) Lena Wang

- DOSH Education and Outreach also shared that she would be able to bring her traveling display to these things.

Chair comments - Employee representative, Karen Bowman

- The Employee work group is having trouble getting together.

Chair comments – Employer representative, Alex Truchot

Round Table discussion

- There is also going to be a subcommittee created to focus on Q&As and outreach materials for the website. This group will be organized by Labor and Industries staff but will be asking for outside stakeholders to participate. The members of this group do not have to be a member of the Hazardous Drug Advisory Committee.

Planning upcoming meetings, All

- January 14' 2014 9am to 12:pm Tukwila service location 12806 Gateway Dr,
